ABOUT THE KEYNOTE SPEAKER

Trevor Bayliss, MD, has practiced oncology for over 20 years, completing his residency and fellowship at Dartmouth Hitchcock Medical Center. However, his first experience with cancer was as a patient, when he was diagnosed with leukemia at age 19. He is passionate about his medical practice at Berkshire Health Systems in Pittsfield, MA, where he combines cutting-edge treatments with human connection. Through TrevorBaylissMD.com, he aims to be a partner, home base, and source of community and support.
